OBJECTIVE

Full-stack Software Developer with hands-on experience in Java Spring Boot, .NET, Angular, and React, plus a strong application-security background, seeking a full-time Software Developer role building secure, scalable web applications.

EDUCATION

B.S. Cyber Security & B.S.I.T. IT-Networking Systems, University of Cincinnati
GPA: 4.0

May 2026

SKILLS

Languages & Frameworks	Java, Spring Boot, C#, .NET, Entity Framework, HTML/CSS, C++, Python, Bash, SQL
Web/Front End	React.js, Angular, Vue.js, Next.js, Java Server Projects,
Cloud & DevOps	AWS (Glue), MS Azure, Azure DevOps, Google Cloud, Docker, Kubernetes, Jenkins, CI/CD, SAST/SCA Integration
Security & Tools	Incident Response, Risk Analysis, Wireshark, Metasploit, Digital Forensics, Windows/Linux CLI, Splunk, Jupyter Notebook, Git/GitHub, Playwright, JEST

EXPERIENCE

Software Engineer, Contract
Sherwin-Williams

May 2026 - Present
Cleveland, OH (Hybrid)

- Worked with an agile team to deliver customer-first features in two-week sprints.
- Implemented database automation for searching and deleting user personally identifiable information (PII).
- Optimized content delivery systems for 1,000+ sales representatives, store managers, and district sales leaders.
- Led application support for the entire sales planning user base.
- Cleared backlog bug levels to 0% across the whole application in all environments.
- Pioneered software modernization efforts in Java Spring Boot and Vue.js, working cross-functionally with other teams and their shared component libraries.
- Managed ETL functions by updating, running, and maintaining AWS Glue scripts.

Application Security Analyst Co-op
Lincoln Electric

May 2025 - Aug 2025
Cleveland, OH

- Drove secure-by-design adoption across dev teams per CISA standards, reducing security gaps.
- Integrated SAST and SCA into workflows, speeding remediation and aligning results with business impact.
- Increased scanning candidates by 7.8x for Rapid7 Insight AppSec, improving visibility.
- Participated in threat modeling using STRIDE and DREAD frameworks to identify and mitigate potential product risks.
- Remediated TLS/SSL certificates across 12 development teams, most using DigiCert and Azure.

Full Stack Software Engineering Co-op
Schaeffler Group

Jan 2024 - May 2024, Aug 2024 - Dec 2024
Wooster, OH

- Led feature creation for applications using Angular.js and C# .NET.
- Leveraged Microsoft Azure and Jenkins to streamline DevOps and deployment.

- Worked with engineering teams to develop custom in-house applications.

Full Stack Software Engineering Co-op

Midmark Corporation

May 2023 - Aug 2023

Versailles, OH

- Developed cloud platform features using React.js and C# .NET.
- Utilized Azure and Azure DevOps for E2E and Jest testing frameworks.
- Leveraged Agile and Scrum methodologies to maximize team communication.

Application Security Co-op

Midmark Corporation

Aug 2022 - Dec 2022

Versailles, OH

- Implemented code scanning automation across 4 software development teams.
- Streamlined deployment processes for Veracode and Rapid7 using Azure DevOps pipelines.

Sales and Technology Repair Associate

Staples Inc.

May 2022 - Aug 2022

New Philadelphia, OH

- Managed technology repair desk and led sales of technology and school supply products.

PROJECTS
